<i>These are buy-up prices for budgeting purposes assuming the County buys the base product. If a county buys up to higher than the base product, a town can figure out a further buy-up cost by simply subtracting. For example if Franklin Co. bought up to 12"L2, then Farmington's further buy-up to 6"L2 would be their 6"L2 cost minus their 12"L2 cost, or \$10,000 - \$4,500 = \$5,500. For 3" buy-ups we can further subdivide out urban areas within a large town which may need the urban center at 3"L1 but not the entire town area. 2016 State of Maine Ortho Prices

These are prices suitable for budgeting.

The actual price may be up to 30% less if several contiguous towns or counties buy together.

By County		Additional buy-ups at county-wide prices (add this to the base cost)

By Town									
<i>These are buy-up prices for budgeting purposes assuming the County buys the base product. If a county buys up to higher than the base product, a town can figure out a further buy-up cost by simply subtracting. For example if Franklin Co. bought up to 12"L2, then Farmington's further buy-up to 6"L2 would be their 6"L2 cost minus their 12"L2 cost, or \$10,000 - \$4,500 = \$5,500. For 3" buy-ups we can further subdivide out urban areas within a large town which may need the urban center at 3"L1 but not the entire town area. This subdividing can only be done on a very limited basis.</i>									
<i>Additionally, the final price may be reduced by up to 30% if several contiguous towns buy up together to the same product.</i>
